

Eased Edge Shiplap

Panelling

Subtle and unobtrusive

A relaxed, softer feel for interiors. Eased Edge Shiplap, in Western Red Cedar, is an interesting alternative to standard Shiplap. It combines a flat section with a Vee Joint profile, which works beautifully in more reserved design approaches. Use Eased Edge Shiplap in either vertical or horizontal applications.

Eased Edge Shiplap features and benefits

- Western Red Cedar is carefully machined to traditional standards
- Tongue and groove can be secret nailed
- Available in two standard widths and one standard thickness

Eased Edge Shiplap is ideal for

- Any internal areas protected from weather
- Suits subtle design applications
- Interior walls and ceilings
