

Flat Panel

Panelling

Neat and slim

A small profile with a big character. Flat Panel, in Western Red Cedar, is the most minimal profile of all the Shiplap styles. The fine channels lend a soft and elegant tone to interiors or alfresco ceilings. Flat Panel is ideal for areas that require a delicate and sophisticated touch.

Flat Panel features and benefits

- Minimal profile with very small channels
- Tongue and groove can be secret nailed
- Available in one standard thickness and two standard widths

Flat Panel is ideal for

- Alfresco and entry ceilings
- Internal walls or inserts
- Commercial receptions/fit outs
- Residential entrances
