

Straight Panel

Panelling

No adornments necessary

Perfectly flat, perfectly even. Straight Panel is a new profile that applauds the irresistible simplicity of timber. This minimalistic profile captures the look of floorboards and needs no flutes or steps to enhance it. Western Red Cedar Straight Panel is ideal for interiors and has no visible fixings.

Straight Panel features and benefits

- Lightweight but with the versatility and durability of Western Red Cedar
- Available in interchangeable widths for varied effects
- Available in one thickness for excellent insulation and noise protection
- Interchangeable with our other profiles
- Can be applied over studs or existing wall board, such as plaster or gyprock
- Improved sustainability rating
- Can be carried from wall to ceiling in one continuous run
- Mirror floorboards by using on a ceiling
- Stain or oil to allow the natural timber to shine

Straight Panel is ideal for

- Internal ceilings and walls
- External features
- Residential or commercial buildings
