

Unsurpassed tradition

The classic beauty of VJs. Our Vee-Joint Panelling is just as popular as ever. VJs in Western Red Cedar are used with stunning effect in modern, architecturally-designed homes and buildings. Their straight lines and perfect alignment celebrate the natural look of timber.

Vee-Joint features and benefits

- Traditional groove finish allows for secret fixing
- Excellent uniformity and alignment
- Clear grade means almost no knots
- Available in three different cover widths
- Available in three different thicknesses
- S series has new secret nail profile
- Double sided profile available for garage doors and gates

Vee-Joint is ideal for

- Feature walls and ceilings
- Restoration work
- Balconies/ceilings
- Saunas and spas
- Splashbacks
- Alfresco and eave lining
