

fienza®

Basins, Baths & Toilet Suites

The Fienza Difference

Cast Stone Baths

Cast Stone Solid Surface baths feature a velvet smooth matte finish. Cast Stone is a beautiful product, moulded in one piece with no joins, for sleek modern style and easy cleaning.

This Fienza quality Solid Surface material does not yellow or crack like some cheaper alternatives on the market. Our product is the same solid material all the way through, meaning it can be sanded and refinished as new.

For more information about Solid Surfaces see page 31.

Cast Stone baths carry a 25 year warranty on structural integrity. If a problem occurs with structural integrity Fienza will replace the product completely.

The Cast Stone matte white finish also carries a 5 year warranty (replacement product or repair).

Lightweight Resin-Stone

Lightweight Resin-Stone is a unique Fienza formula, producing a lighter weight, semi-gloss version of the Cast Stone product.

This lighter weight means these baths require only a 2-man lift, reducing the cost of transport and installation.

The Fienza quality Resin-Stone material does not yellow or crack like some cheaper alternatives on the market. Our product is the same solid material all the way through, meaning it can be sanded and refinished as new.

Fienza Resin-Stone carries a 25 year warranty on structural integrity. If a problem occurs with structural integrity Fienza will replace the product completely.

Acrylic Baths

Fienza Acrylic baths are produced from the highest quality Lucite PMMA Acrylic.

Compared to standard acrylics this material is much stronger and straighter, giving these modern styles a crispness that shows off their flawless design.

Fienza acrylic products are UV stabilised, helping them not to yellow over time.

All of our acrylic baths have an inbuilt metal support frame and adjustable legs. A chrome pop-up waste is included with every bath purchase.

Acrylic baths carry a 10 year warranty on the shell. If a problem occurs with structural integrity Fienza will replace the product completely.

Adjustable legs and frames carry a 5 year warranty.

HAMPTON

- Cast Stone Solid Surface Bath
- Matte white finish
- Modern free-standing style with legs
- Overflow
- Chrome pop-up waste included

Toilet Suites

RIMLESS Hygienic Designs

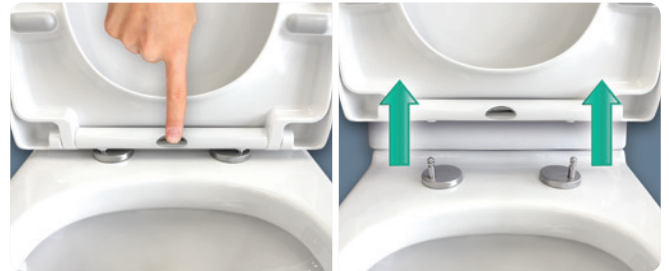

Many Fienza toilet suites have extra hygienic features, giving you peace of mind, and keeping your suite sparkling white.

RIMLESS pan designs do away with the traditional boxed rim pan shape, having no rim at all. A rimless design has no hiding places for bacteria, creating the sleekest, easy-clean solution for your home.

Easy Cleaning

Our one-touch quick release seats make cleaning a breeze. Open the lid to the upright position, press the button, and lift straight upwards to remove the seat completely. After cleaning, just click the seat back into position and close.

NANO-GLAZE Protection

FLUSH & NO BRUSH! Fienza's NANO-GLAZE technology creates an incredibly fine finish to the ceramic, acting as a protective barrier against bacteria, dirt particles and oils. Nano-glaze technology was originally developed by NASA!

Our Nano-glazed suits take hygiene a step further than the rest with a FULLY GLAZED TRAP. During manufacture our special Nano-glaze finish is pressure pumped through the trap, ensuring no part of the bend remains unglazed. This means no nasties get stuck or build up.

Quality and Versatility

We use UF Seat Covers, a luxurious and hygienic material. UF will not yellow and retains its bright white colour even in sunlight. Most Fienza seat covers are 'soft close' as standard, adding to the quality feel and making sure the cover closes quietly.

Fienza Back-to-Wall suites are designed to offer several installation options: P-trap, S-trap, top inlet, bottom inlet, left or right inlets... These suites are versatile and our range offers many styles adaptable to most bathroom configurations.

Our toilet suites use the highest quality R&T flush mechanisms and valves which have proven to be so reliable that we have a large stock of unused spare parts!

Accessorise

Toilet suites come with chrome flush buttons as standard. Matte black flush buttons are available separately.

CHICA Rimless Close-Coupled

- RIMLESS pan hygienic flush
 - Rectangular chrome flush buttons

CISTERNS & FLUSH PLATES

Wall-faced and Wall-hung toilet suites are available with quality in-wall cisterns from R&T or GEBERIT, each with their own range of flush plates (sold separately) to complete your style.

GEBERIT cisterns are made in Switzerland and considered to be the world's best. They come with a 10 year warranty.

R&T cisterns are great quality and extremely reliable. Made in China, they carry a 3 year warranty.

Please note: Flush plates are an additional purchase and not included in the suite prices.
