

GAINSBOROUGH HOME

Welcome Home.

At Gainsborough we're all about opening a world of new style possibilities in door and access solutions.

For over forty years we have built our reputation on developing and producing leading-edge door hardware - innovative levers and locks that work silently to reflect your style and needs.

With our smart, design-savvy range, you can create a complete and harmonious look throughout your home that reflects your individuality and personal flair.

It goes without saying that with Gainsborough, you don't need to sacrifice style for security, because we know the most important thing isn't what's on your door, it's what's behind it.

For exterior doors

Contents

The right product for your home.

Gainsborough Home has access solutions for all of life's openings, each designed to keep working effortlessly through the years.

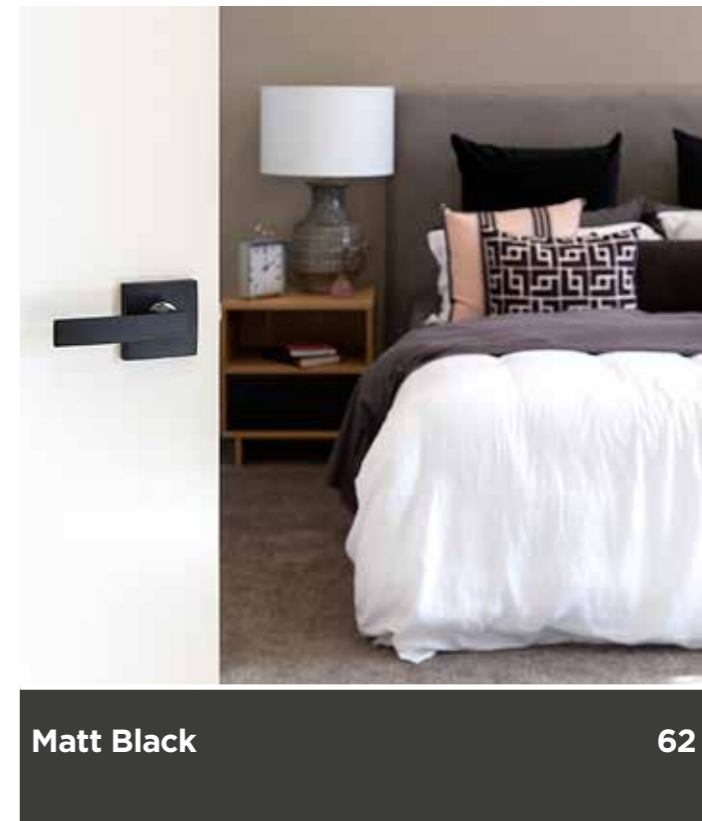

Making the right selection is important. Use the section guide to identify the application for your home and match this with the solutions available.

Selecting Your Product

Choose the right products for every application.

Gainsborough offers a broad range of products to suit applications throughout the home. The following shows a house plan and serves to indicate the Gainsborough products available to suit the relevant door in the home. Page numbers are also shown adjacent to the products concerned, in order to provide you with an easy to find reference guide.

Select the right hardware for your door.

- ENTRANCE** (Red bar): For entrance and external doors you want to lock.
- PRIVACY SET** (Blue bar): For internal doors that you want to lock.
- PASSAGE SET** (Green bar): For internal doors that you don't want to lock.
- DUMMY LEVER** (Yellow bar): For non-operation wardrobe or closet doors.

ELECTRONIC ACCESS

**Gainsborough's Digital
Entry Lever Lock
offers the ultimate in
convenience and security.**

You no longer need to carry around bulky keys. Entry is now made quick and easy using the illuminated keypad or by touching your entry tag. Gainsborough's Digital Entry Lever Lock is the perfect solution to upgrade your security at home.

ELECTRONIC ACCESS DIGITAL ENTRY LEVER LOCK

The new standard in digital locking solutions.

TOUCH ACCESS:

- Simply touch and go for speedy entry into your home
- Supplied with two entry tags, each lockset can be programmed to accept up to six entry tags

KEYPAD ENTRY:

- Digital keypad is programmable and features illuminated buttons for visibility and easy access
- A total of six user codes can be saved to operate each lockset
- 'One-time' user codes can be created for use by tradespeople, cleaners or your babysitter for added convenience and security

OTHER FEATURES INCLUDE:

- Manual key override - two mechanical keys provided for complete peace of mind
- Powered by four (4) AA batteries - no hard wiring required
- Additional entry tags can be purchased separately

DIY READY TO GO™

3 IN 1 ENTRANCE SETS

TRILOCK™

Trilocks secure more new front doors in Australia than any other lock. Its unique 3 in 1 technology keeps your home private and secure.

Choose from the classic chic of the Trilock Traditional, the sleek, modern look of Trilock Contemporary, the minimalistic flat plated Trilock Eclipse through to the premiere in style and engineering, the Trilock Omni Pull Handle.

Trilocks set the standard from your front doorstep, inspiring you to express your signature style with complementary levers throughout your home. All Trilocks feature state of the art tarnish-resistant finishes that can be matched in look and feel to your favourite interior levers.

TRILOCK™

3 in 1 Security

Gainsborough Trilocks are unique in design, offering a combination of lockset, deadbolt and passage functions in the one system.

Three functions, one stylish lock.

Lockset with safety

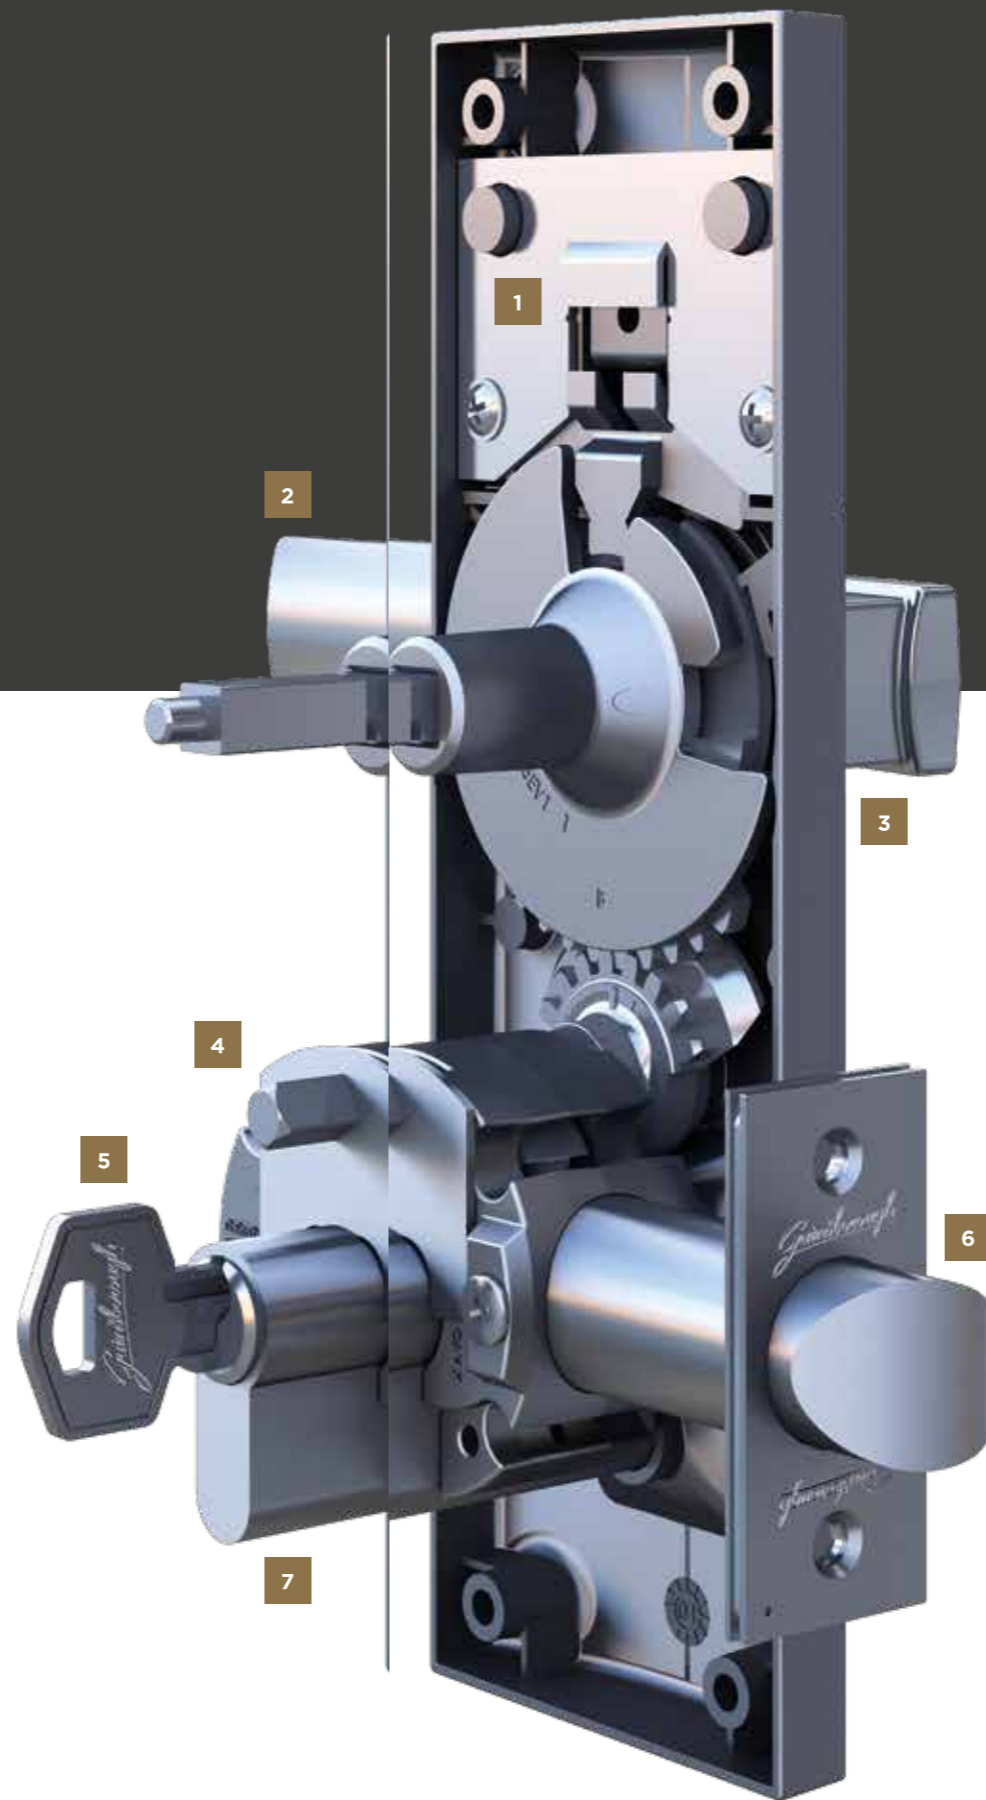

Pressing the button on the inside of the door engages the Trilock lockset mode. This locks the door from the outside, however it is safe to exit without a key in an emergency by simply turning the inside knob or lever.

Deadbolt security

Trilock houses a key-operated double cylinder deadbolt, with a sturdy 20mm throw, to keep possessions and valuables safe whilst the home is unoccupied. (Single cylinder version features inside turn-button.)

Passage set convenience

When Trilock is unlocked and unsnibbed, it operates as a standard passage set, allowing free access in or out of the home.

- 1 The push button lockset mode from inside of the door features panic release by simply turning the inside knob or lever.
- 2 Levers can be easily rotated during installation for use on left or right hand doors.
- 3 When unlocked and unsnibbed, Trilock operates as a normal passage set.
- 4 Lock body readily replaces old keylocks fitted to a standard 54mm hole.
- 5 Single handed operation (key operates all functions of the lock).
- 6 Deadbolt 20mm throw for extra security.
- 7 Solid brass double 5 pin Euro profile cylinder can be keyed alike to other Gainsborough products for same key convenience.

Exterior side	Interior side	
		Double Cylinder Key from either side will lock or unlock deadbolt.*
		Single Cylinder Key from outside or turn-button from inside will lock or unlock deadbolt.*
		Dummy Set A non-operational handle set for the fixed side of a double door.

* Also features other functions;
 • Push-button lockset mode
 • Passage set convenience when unlocked and unsnibbed

- 60mm backset
 - Suits doors 33-45mm thick

Gainsborough

AUXILIARY HARDWARE DOOR SEALS & WEATHERSTRIPS

Providing protection all year around, our Door Seals & Weatherstrips range protects against draughts, cold, heat, dust, insects and noise, while saving on heating and cooling costs. Gainsborough offers a wide selection of quality Door Seals & Weatherstrips to cater for a variety of applications.

ROLLING
PART NO. GS1

GS1 is recommended for interior doors and suits hinged, inward opening, single or double doors, helping to protect against draughts, cold, heat and dust. The GS1 rolling seal features rollers for smooth action and comes with easy to fit fixing brackets for simple installation.

Available finishes:
GR

AUTOMATIC
PART NO. GS3

GS3 is recommended for external doors and suits hinged, inward opening single doors, helping to protect against draughts, cold, heat, dust and insects. The GS3 automatically lifts as the door is opened to clear carpet and seals on door closure. Features aluminium construction and durable rubber.

Available finishes:
GD / **BZ** / SL

BRUSH
PART NO. GS2

GS2 is recommended for interior and exterior doors and suits hinged, inward or outward opening, single or double doors, helping to protect against draughts, cold, heat, dust and insects. The GS2 brush seal also suits sliding doors and security/screen doors and features a hard wearing polypropylene brush.

Available finishes:
GD / BZ / **SL**

STORM
PART NO. GS4

GS4 is recommended for exterior doors and suits hinged, inward or outward opening, single or double doors, helping to protect against draughts, cold, heat, dust, noise, rain and insects. The GS4 storm proof seal features a two piece aluminium construction and durable rubber for tight sealing.

Available finishes:
GD / **BZ** / SL (915mm length only)
GD (825mm and 1750mm length only)
ML

AUXILIARY HARDWARE DOOR SEALS & WEATHERSTRIPS

The Door Seal range includes a selection of products designed for either exterior or interior door applications or both. Choose from Rolling, Brush, Automatic, Storm and Rubber door seal versions. The Gainsborough Weatherstrip range is ideal for surrounding doors and windows and includes Foam, Rubber and Pile varieties.

RUBBER
PART NO. GS5

GS5 is recommended for interior and exterior doors and suits hinged, inward or outward opening, single or double doors, helping to protect against draughts, cold, heat, dust and insects. The GS5 seal is ideal for hinged security/screen doors and features aluminium construction and durable rubber.

Available finishes:
GD / BZ / SL

FOAM
PART NO. GS20

GS20 Foam suits hinged doors and windows and helps protect against draughts, cold, heat, dust, noise and insects.

Available finishes:
WH / **BR**

PILE
PART NO. GS40

GS40 Pile suits hinged doors and sliding doors and helps protect against draughts, cold, heat, dust and insects.

Available finishes:
BR

RUBBER
PART NO. GS30 & GS31

GAINSBOROUGH HANDING AND INFORMATION

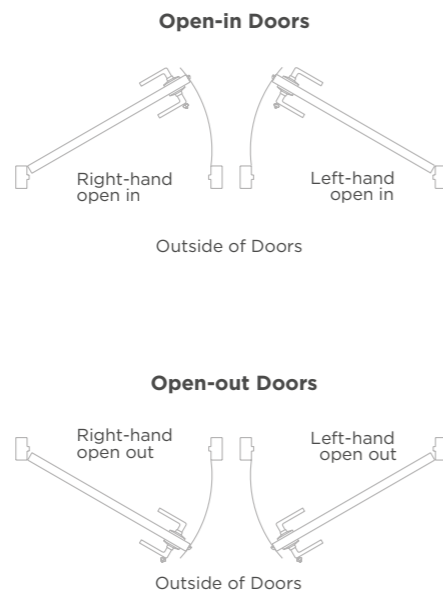

VISIT US ONLINE
gainsboroughhardware.com.au

Handing

Some of our door furniture products are handed. To assist you with identifying the required handing, please refer to this simple diagram for an explanation.

General Information

Safety Notice: For Double Cylinder function, we recommend that you do not keylock from the inside of the door when occupants are inside. If you choose to do so, ensure key is readily accessible and operable by all persons who may need to exit the building in an emergency.

Ensure occupants know how to operate lock and keys to gain immediate exit.

Life is for living and Gainsborough is designed that way. Our products are created with you in mind, giving you greater access to enter your world, securely and effortlessly.

Style is more than just looks, it's about the way you live and move and work.

That's why Gainsborough is more than just a fashion statement. Beyond form and finish, our products are designed for you to live your lives the way you want, every time.
