

Batten & Board

Cladding

Nostalgic charm

Bringing rustic appeal to contemporary building. Western Red Cedar Batten & Board, has a unique vertical profile. Its authentic character enhances construction designs and when used in large sections, creates a striking visual impact. This two-piece system can be installed vertically with moisture barrier fitted behind, giving excellent, weather-tight cladding.

Batten & Board features and benefits

- The durability of Western Red Cedar is perfect for external use
- Two-piece system gives unique batten effect
- Available in large sections to enhance design effects
- Contains exceptional thermal properties

Batten & Board is ideal for

- External cladding and facades
- Highrise external features
- Feature walls in outdoor areas
- Alfresco lining
