

Bevel Lap with Centre Groove

Cladding

Make a bold statement

Strong, daring lines produce a spectacular impact. Our innovative designers have created the unique Bevel Lap with Centre Groove. This impressive profile, in Western Red Cedar, has slight bevels around deep, wide channels. The effect is eye-catching and distinctly stylish. Use horizontally for optimum shadows.

Bevel Lap with Centre Groove features and benefits

- Superior thermal protection
- Angled channels reduce water penetration for better weather protection
- Machined drip grooves for horizontal installation
- FSC and PEFC timber options
- Can be face nailed for discrete joins, or proud nailed for additional affect
- Available in two standard widths
- Both widths are interchangeable with standard Bevel Lap
- Excellent environmental credentials

Bevel Lap with Centre Groove is ideal for

- External walls
- Alfresco ceilings
- Ceilings that require acoustic values
- Feature panels in walls cladded with Bevel Lap
