

Diamond Cladding

Cladding

Something very different

Say it with style, say it with diamonds. Diamond Cladding, in Western Red Cedar, is available in two different overlap profiles and one tongue and groove profile. The diamond-shaped vee creates a fluted effect in the timber that is strikingly different. Use Diamond Cladding horizontally or vertically in a variety of applications. This is an opportunity to advance on current design trends.

Diamond Cladding features and benefits

- Tongue and groove profile is interchangeable with our 'Castellation Combination' profiles
- Overlap profile available in two thicknesses which have machined drip grooves for superior weather protection
- Can be painted or stained
- Excellent insulation qualities
- Can be teamed with bricks or render for a contemporary look
- Casts amazing shadow effects

Get creative!
