

# Rib Cladding

## Fascinating shadows

Boldly corrugated for extreme drama. Rib Cladding, in Western Red Cedar, is an exciting new product. Available in overlap or tongue and groove profiles, Rib Cladding is a modern alternative to corrugated iron. It balances the boldness of defined ridges with the natural beauty of timber. Rib Cladding uses perfectly even furrows to produce dramatic shadows and highlights. Use horizontally or vertically.

## Rib Cladding features and benefits

- Tongue and groove profile is interchangeable with our 'Castellation Combinations' profiles
- Overlap profile available in two sizes which have machined drip grooves for superior weather protection
- Can be painted or stained
- Excellent insulation and acoustic qualities

## Rib Cladding is ideal for

### Overlap profile

- Internal or external feature panels
- Commercial buildings
- Residential homes

### Tongue and groove profile

- Walls and ceilings
- Alfresco ceilings
- Cafes, restaurants, outdoor dining areas
