

Rusticated Weatherboard

Cladding

Beautiful country style

Rustic by name, rustic by nature. Rusticated Weatherboard is an alternative to Chamferboard that really captures the feel of the country. Made from Western Red Cedar, Rusticated Weatherboard is ideal for a rural setting. The cladding is also available in the more economical fingerjoint Western Red Cedar. Rusticated is an historic statement of early heritage seen in the Sydney cottage and Australian homesteads.

Rusticated Weatherboard features and benefits

- Carefully machined to three standard widths
- 18mm thickness gives excellent stability and insulation
- Other sizes available if required to match existing buildings
- Clear grade Western Red Cedar is ecologically sound
- Profile to be face nailed
- Can be painted or finished in its own natural golden tones
- Features effective water shedding

Rusticated Weatherboard is ideal for

- Rural settings
- Traditional buildings – both residential and commercial
- Multi-story or single level
- Country-style homes (i.e. those with verandahs, and timber doors and windows)
